

Air Incidents and Crashes in West Essex 1911-2001

This is not a comprehensive listing of all crashes and incidents in West Essex but it is the majority of those involving aircraft “coming to notice” in the West Essex area.

In the early years of the listing this often relates to little more than a visit, a minor technical grounding. In later years the level of this coming to notice invariably relates to a crash. Only collisions warrant joint dating.
